

The Wadia portable pump range complies with BIS standards and has the highest output of any portable pumps available in India. Outputs range from 275 Ltrs. @ 4.5 Bar pressure up to 1800 Ltrs at 8 Bar pressure from 3mtrs suction height. All Wadia pumps use environmentally friendly clean 4 stroke engines

PUMP

Single or dual stage centrifugal pumps
 Seawater resistant Al. alloy or Gun Metal
 Sealing by means of special radial seals
 75-100 mm round thread suction inlets
 63mm deliveries with female couplings
 Power transmission via flexible coupling

PRIMING

Water-ring, Exhaust Ejector, Twin Piston
 Lifts water from 7 Mtrs. in 21 seconds

ENGINES

2, 3, 4 cyl. 4 stroke, recoil or Elec. start
 Petrol or diesel operated as required
 Cooling by an efficient heat exchanger

CONTROL PANEL

Well illuminated control panel provided
 All the gauges are ergonomically grouped
 Equipped for all the controls of pump
 Pressure gauge, Compound Gauge, hour meter, ignition switch, throttle lever, oil pressure, water temperature, battery condition and ampere meters are supplied as standard on most pumps

LIGHTING

Adequate control panel lights standard
 Telescopic halogen spotlight is optional

FUEL TANK:

Sufficient for 2 hrs continuous operation
 Corrosion proof SS or FRP material used

CARRYING FRAME

High-strength MS or Stainless Steel frames available with foldable handles adjustable in any direction with grips of m o l d e d r u b b e r

OTHER OPTIONAL EQUIPMENT

Details of all other optional accessories and equipments which can be fitted on Portable Pumps are available on request. Please contact us on the below mentioned contact details and we will be happy to help you
